

Create Your Classroom in the Cloud

Over 10,000 educational institutions, including 90% of Top US Universities, use Zoom for virtual classrooms, online courses, group projects, TA hours, and more.

Features

- ★ **HD Video and Audio Conferencing:** Up to 100 people can participate in your standard meeting (Large meetings scale to 500 participants)
- ★ **Screen Sharing:** One-click HD screen sharing – even share video and audio with ease!
- ★ **Video Breakout Rooms:** Create smaller teams to collaborate and learn from one another, all within the same meeting or training session
- ★ **Co-Annotation:** Draw directly on the shared screen so that notations are visible to all attendees
- ★ **Multi-Sharing:** Allows multiple participants to share their screen at the same time
- ★ **Recording of Meetings / Class Sessions:** Save your session for students to watch later
- ★ **Any Device:** Mac, PC, Chromebooks, iOS, Android, and BlackBerry
- ★ **Closed Captioning:** Ensure all guests can participate equally
- ★ **Group Messaging:** Send text and voice messages, files, or images with class groups or individuals
- ★ **Polling:** Engage your students with quick polls, giving everyone a chance to participate
- ★ **Dashboards / Management Tools:** View information ranging from overall usage to live in-meeting data
- ★ **LTI (Learning Tools Interoperability):** Schedule meetings from Moodle, Canvas, Desire2Learn, or Blackboard
- ★ **REST API:** Incorporate meetings into LMS, web applications, and websites
- ★ **Easy User Management and Single Sign-on:** Use your .edu URL for SSO. Create SSO with SAML or OAuth
- ★ **Security:** Complete end-to-end 256-bit AES encryption

Optional Add-ons to Fix Your Needs

- ★ **Video Webinars:** Registration, reporting, Q&A, polling and more for up to 10,000 attendees, or broadcast on Facebook Live or Youtube to unlimited attendees
- ★ **Zoom Rooms:** Simplify classroom set up for video conferencing. Works on Mac, PC, and interactive touchscreen displays
- ★ **H.323/SIP Connector:** Interoperability to extend your H.323/SIP systems to the cloud
- ★ **Zoom Meeting Connector:** Hybrid cloud service to run meetings on-premise
- ★ **Premium Audio:** Zoom includes VoIP and global dial-in. Add integrated global toll-free telephone calling or use your own 3rd party audio provider

Focus on the students, not the technology:

Zoom allows your school to expand its impact across geographies to reach more students and offer new learning opportunities by including guest lecturers from literally anywhere. It also makes collaborating with other educators and administrators easy.

Maximize your technology investment:

Zoom offers the best video, audio, and screen sharing solution for educators at extremely affordable pricing.

Dont take it from us. Take it from them:

"Zoom has allowed online learning programs to be more successfully deployed when compared to competing products. The video quality of Zoom allows all remote participants to better see the faces of their classmates, while easily integrating content sharing, breakouts, and annotation."

Tim O'Neil | IT Director, Brandeis University

About Zoom

Zoom is the leader in modern video communications, with an easy, reliable cloud platform for video and audio conferencing, collaboration, chat, and webinars across mobile, desktop, telephone, and room systems. Zoom Rooms is the original software-based conference room solution used around the world in board, conference, huddle, and training rooms, as well as executive offices and classrooms. Founded in 2011, Zoom helps businesses and organizations bring their teams together in a frictionless environment to get more done. Zoom is a private company headquartered in San Jose, CA.
